Nancy,

Just confirming that OCSPP has taken the pen on Question 99 and will submit it to OCIR with your package?

Regards,
Lee

Thanks. We can take the lead on this one.
We have a very detailed response about the criteria for adding something to TRI. However, I think your approach may be better.

Subject: QFR - on PFAS

Deliberative, Confidential; draft do not distribute

Alex and Nancy:

Below is a PFAS question that is probably more in the OCSPP realm than OW's so if you want to take the lead in response then we will defer. If you want us to respond it will probably something like below.

(#99) OW/OCSPP: If confirmed, will you commit to increase transparency about PFAS chemicals by adding those chemicals to the Toxic Release Inventory?

Response: If confirmed I and the rest of EPA will certainly be as transparent as possible under the various applicable statutes and court decisions in all aspects of our PFAS activities.

Let me know what you want to do.

Regards,
Lee
